From Principal's desk

Dear parent

At Army Public School DhaulaKuan our endeavor has been to provide holistic education to our students. Along with timely completion of syllabi we have given time for revision and remedial work too. Most of our children have been working hard which will help them to do well during the coming AISSCE examination.

I on behalf of the school management and our faculty, we wish them 'success' not only for the coming exam but all the future endeavors, and journey which our children are going to embark upon and to remember that Success is combination of thoughts, words and action.

We have prepared some suggestions for parents and children to reduce examination stress, please go through them and try to follow, be patient with your children and provide them support. Our faculty, our counselor and all other members of staff are there to provide you help.

We will also help our children after class 12<sup>th</sup> examination to choose the right career paths. Our school "Counseling cell" with the help of our counselor can provide guidance in advising the children.

We create a data base of our children after +2. Please ask your ward to inform their class teachers about the field your ward have chosen to join after the results of class XIIth are declared. You can also mail this information on [apsdk1953@gmail.com](mailto:apsdk1953@gmail.com). As an institution it is an important to get this feedback

Last but not the least I can only suggest to take inspiration from the lines of Theodore Roosevelt

“ Far better it is to dare mighty things, to win glorious triumphs, even though checkered by failure, than to take rank with those poor spirits which neither enjoy much nor suffer much, because they live in grey twilight that knows not victory nor defeat “
